

# LTS Research Laboratories, Inc. Safety Data Sheet Copper Indium Gallium

#### 1. Product and Company Identification

Trade Name: Copper indium gallium

Chemical Formula: Cu-In-Ga

Recommended Use: Scientific research and development

Manufacturer/Supplier: LTS Research Laboratories, Inc.

Street: 37 Ramland Road
City: Orangeburg
State: New York
Zip Code: 10962
Country: USA

Tel #: 855-587-2436 / 855-lts-chem

24-Hour Emergency Contact: 800-424-9300 (US & Canada)

+1-703-527-3887 (International)

#### 2. Hazards Identification

Signal Word: Warning

Hazard Statements: H228: Flammable solid

H319 Causes serious eye irritation H335: May cause respiratory irritation H290: May be corrosive to metals

Precautionary Statements: P261 Avoid breathing dust/fume/vapor

P210: Keep away from heat/sparks/open flames/hot surfaces – No

smoking

P280: Wear protective gloves/protective clothing/eye protection/face

protection

P240: Ground/bond container and receiving equipment

P241: Use explosion-proof electrical/ventilating/lighting/equipment P370+P378: In case of fire: Use CO<sub>2</sub>, powder or water spray for

extinction

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do  $-\,$ 

continue rinsing P405: Store locked up

P501: Dispose of contents/container in accordance with

local/regional/national/international regulations

P234: Keep only in original container

P390: Absorb spillage to prevent material damage

P406: Store in a corrosive resistant container with a resistant inner liner

HMIS Health Ratings (0-4): Powder Bulk

Health: 1 0 Flammability: 2 0 Physical: 1 0

Elammobility	5. Firefighting Measures
Flammability:	lammable
Spec. Fire Fighting Procedure:	Oo not use water for metal fires – use CO <sub>2</sub> , sand, extinguishing powder Use full-face, self-contained breathing apparatus with full protective lothing to prevent contact with skin and eyes. See section 10 for ecomposition products.
6. A	Accidental Release Measures
sj v a	Vear appropriate respiratory and protective equipment specified in pecial protection information. Isolate spill area and provide entilation. Vacuum up spill using a high efficiency particulate bsolute (HEPA) air filter and place in a closed container for disposal. Take care not to raise dust.
	solate runoff to prevent environmental pollution.
	7. Handling and Storage
Handling Conditions: V	Vash thoroughly after handling.
	tore in a cool dry place in a tightly sealed container. Store apart from
	naterials and conditions listed in section 10.
Work/Hygienic Maintenance:	Oo not use tobacco or food in work area. Wash thoroughly before ating and smoking. Do not blow dust off clothing or skin with ompressed air.
	Provide sufficient ventilation to maintain concentration at or below

### 8. Exposure Controls and Personal Protection

Permissible Exposure Limits: 0.1 mg/m<sup>3</sup> as In, long-term value Threshold Limit Value: 0.1 mg/m<sup>3</sup> as In, long-term value

Special Equipment: None

**Respiratory Protection:** Use a respirator with type P100 (USA) or P3 (EN143) cartridges as a

> backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government

standards.

Protective Gloves: Nitrile rubber, NBR 0.11mm thick.

Eye Protection: Safety glasses or goggles

**Body Protection:** Protective work clothing. Wear close-toed shoes and long

sleeves/pants.

#### 9. Physical and Chemical Characteristics

Color Silver

Form: Powder, Granules, Pellets, Sputtering target, Custom parts

Odor: **Odorless** Water Solubility: Insoluble **Boiling Point:** N/A

**Melting Point:** 29.8-1083 °C

Flash Point: N/A Autoignition Temperature: N/A Density: N/A N/A

Molecular weight:

# 10. Reactivity

Stable under recommended storage conditions Stability:

Reacts With: Acids, Halogens, Aluminum/aluminum alloys, Magnesium/magnesium

alloys, Oxidizing agents

**Incompatible Conditions:** protect against electrostatic charges

Hazardous Decomposition Products: Metal oxide fume, Indium oxide, Copper oxides

# 11. Toxicological Information

Potential Health Effects:

Eyes: Causes serious eye damage

Skin: May cause irritation Ingestion: May cause irritation Inhalation: May cause irritation

Chronic: N/A

Signs & Symptoms: N/A **Aggravated Medical Conditions:** N/A

Median Lethal Dose: >5000 mg/kg for mouse by mouth

EPA-D: Not classifiable as to human carcinogenicity: inadequate and Carcinogen:

animal evidence of carcinogenicity or no data are available

12. Ecological Information

Aquatic Toxicity: High
Persistent Bioaccumulation Toxicity: No
Very Persistent, Very Bioaccumulative: No

Very Persistent, Very Bioaccumulative: Notes:

Toxic for aquatic organism.

May cause long lasting harmful effect on aquatic life

Do not allow material to be released to the environment without proper

governmental permits.

Also poisonous for fish and plankton in water bodies

Do not allow undiluted product or large quantities to reach ground

water, water course or sewage system. Avoid transfer into the environment.

13. Disposal Considerations

Dispose of in accordance with local, state, national, and international regulations.

14. Transportation Data

Hazardous: Hazardous as powder only.

Hazard Class: 4.1 Flammable solids, self-reactive substances and solid desensitized

explosives. Research

Packing Group:

UN Number: UN3089

Proper Shipping Name: Metal powders, flammable, n.o.s. (Copper indium gallium)

15. Regulatory Information

Sec 302 Extremely Hazardous:NoSec 304 Reportable Quantities:N/ASec 313 Toxic Chemicals:Yes

16. Other Information

This safety data sheet should be used in conjunction with technical sheets. It does not replace them. The information given is based on our knowledge of this product, at the time of publication. It is given in good faith. The attention of the user is drawn to the possible risks incurred by using the product for any other purpose other than that for which it was intended. This does not in any way excuse the user from knowing and applying all the regulations governing his activity. It is the sole responsibility of the user to take all precautions required in handling the product. The aim of the mandatory regulations mentioned is to help the user to fulfill his obligations regarding the use of hazardous products.
